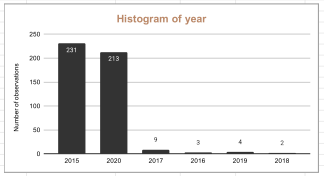
Investigating year representation

Min year	2015
Max year	2020
Average y_diff	4.8
Min y_diff	1
Max y_diff	5
Count y_diff = 0	0

The minimum gap is 1 year, so the average is much larger than the minimum (meaning some countries have observations close together, but that's rare).

The maximum gap is 5 years, and the average (4.80) is very close to the maximum, meaning the dataset is mostly recorded every 5 years for most countries.

The data collection frequency is mainly 5-year intervals, with a few cases where a country has data 1 year apart.



The dataset is not evenly distributed across time. Most country observations are recorded in 2015 and 2020, suggesting that the dataset mainly captures measurements at roughly five-year intervals (baseline vs latest). The small counts for 2016–2019 indicate a limited number of countries with intermediate-year data, so this is not a full annual time series for most countries.

Investigating Annual Rates of Change (ARC)

	ARC_n	ARC_r	ARC_u
average	0.2767	0.484493696	0.1548234028
minimum	-1.0218	-1.22738096	-1.620086812
maximum	2.7503	2.667882638	2.668211856

A lower ARC average (as calculated before) does not necessarily indicate less progress in changing access to basic water services because it takes into account countries that already have 100% access.

Investigating access by area

We are counting the string "Null" occurrences in those ARC columns.

Nb of countries that have missing ARC values	
ARC_n	2
ARC_r	64
ARC_u	50

Calculating the number of countries that have full access per population

The number of 'full access' occurrences per area	
National	62
Rural	29
Urban	55

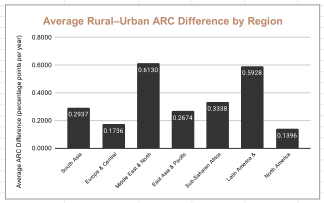
Many countries have 100% urban or national access, which forces ARC to 0 and can pull averages down.

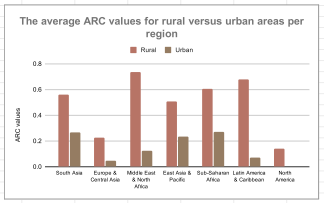
Nb of countries that have 'ARC = 0' and that don't already have full access	
National	16
Rural	5
Urban	7

Nb of countries that have 'ARC > 0' and that don't already have full access	
National	135
Rural	116
Urban	93

Nb of countries that have 'ARC < 0' and that don't already have full access	
National	16
Rural	17
Urban	26

Checking that we've considered all countries for the conditions	231





Investigating access by region
